The Village Improvement Committee gave three dances during the past Club year. After all expenses were paid they cleared the sum of  $105 \frac{85}{100}$ . We have concentrated our efforts on one main improvement, that of installing a Public Drinking fountain.

This cost the Committee \$76.55 Mr. W. A. Gano kindly contributed his work in installing the Fountain. The rest of the expense was taken care of by the City Council which was greatly appreciated.

The Club presented the Drinking Fountain to the City as a token of this years work.

They will have future charge
